Tristan Visser

FINAL-YEAR BSC COMPUTER SCIENCE STUDENT · BACKEND AND FULL-STACK DEVELOPER

Stellenbosch / Cape Town, South Africa hello@tristanvisser.co.za github.com/tristan-visser linkedin.com/in/tristan-visser

SUMMARY

Final-year Computer Science student at Stellenbosch University. Backend, database and full-stack experience with Electrum and commercial clients. Seeking a graduate software engineering role from January 2027.

EDUCATION

2023 — 2026

BSc Computer Science
Stellenbosch University
Focus: backend, databases, REST APIs and software engineering. Expected 2026.

EXPERIENCE

2025 — Present

Commercial Web Developer & Technical Consultant
Freelance · Local business clients

- Built and deployed custom web applications with relational databases and secure hosting.
- Managed requirements, DNS, responsive UI and ongoing maintenance.

2026

Backend Developer & Scrum Master
Electrum · industry project
Built a Java dependency graph engine that identifies breaking API changes and opens automated GitHub pull requests for affected repositories, across three Agile sprints.

PROJECTS

2026

Hackathon Hosting Platform
Hackathon platform with teams, collaborative editing and sandboxed Python judging.
REACT 19 · VITE · EXPRESS · PRISMA · SQLITE · WEBSOCKETS · NODE.JS · DOCKER

2026

P2P File Sharing & RBUDP
Encrypted P2P file sharing with a custom reliable UDP protocol, benchmarked against TCP.
JAVA · JAVAFX · UDP · TCP · RSA / AES · TAILSCALE

2026

Parallel Othello MCTS
Distributed MCTS Othello player in C/MPI, reaching 1.3M simulations/sec at 8 processes.
C · MPI · DOCKER · PYTHON

SKILLS

LANGUAGES	Java · Python · JavaScript · SQL · C · Lua
BACKEND AND DATA	Spring Boot · Node.js · Express · Prisma · PostgreSQL · Supabase · REST APIs · WebSockets
FRONTEND	React.js · Next.js · Tailwind CSS · HTML · CSS · WordPress
SYSTEMS AND TOOLS	C/OpenMP · MPI · Multi-threading · UDP/TCP · JavaFX · Linux/Bash · Git · Docker · Cloudflare · Vercel · JVM
